

Madison County Parks and Recreation

Tree Memorial Program Information

Objective:

Provide a memorial program and continually add green space to the park.

Details:

A Memorial Tree may be “purchased”. Donors may choose from the freshly planted trees (2019) until the next batch of trees are planted. They complete a registration form with placard details, and in few weeks, the placard may be placed at the tree of their choosing. Placard will remain with the tree for the full life of the tree.

Cost:

Each dedication is \$100. This will cover the cost of the tree, placard, mulching, water and other maintenance over the life of the tree.

Maintenance:

Madison County Parks and Recreation Authority (MCPRA) staff will be responsible for mulching, watering, and general park maintenance.

Damage Policy:

MCPRA staff is not responsible for lost, stolen, or damaged placards, except when damaged by MCPRA staff or volunteers. If MCPRA is deemed responsible for the damage, the placard will be replaced at no cost to the Donor.

The Tree Memorial dedication spans the life of the tree. While MCPRA will do everything in its power to maintain healthy trees, there are some instances that are outside of our control. If the tree dies within the first year of planting, the trees will be replaced by MCPRA. If the tree dies after the first year, a new tree may be purchased from MCPRA. If the Donor chooses not to purchase a new tree, they may keep the placard.
